Congressman Gubser Says:

WE'RE WINNING COLD WAR WITH IKE'S LEADERSHIP

That we are winning the cold war against communism was the belief expressed Tuesday evening by Congressman Charles Gubser at a meeting in the Campbell Grammar School, sponsored by the Republican Assembly unit here. Gubser who just returned from Europe said that for six weeks he inspected East and West Germany, and saw 1000 refugees leave daily the communist east Berlin sector for the freedom area. Berlin is under English, French, American and Communist sector control and it is permissible to visit each area.

Those refugees who qualify on reaching freedom are flown to areas for work and decent living conditions. The communists have no answer to this movement. He said Berlin is the show place where we are winning the war and given time and proper leadership it will be won. He contended that there is great respect for leadership of President Eisenhower and his dedication toward a lasting peace, and that John Foster Dulles is firm in carrying out administration policies. Any change in administration that would yield to Communist proposals may bring on a hot war, he stated.

Gubser who was on assignment for civil service and postal investigation said U. S. Postal department methods are antiquated as compared with systems used on continental Europe, and that he plans to report this in Washington. He had warm praise for the Voice of America programs that were reaching behind the iron curtain. West Germany along the Rhine river is busy and with work for all. It looks like a country that won the war with barges loaded with goods, loaded trains and trucks, happy, well-dressed people, while across in the communist sector there are no trucks, loaded trains or smiles.

Gubser and his wife, Joan went into East Berlin with Lt. James McQueen, same officer who took Reps. Edward Boland and Harold Ostertag in and were detained several hours because of having the same radio in the car as was in there when he visited the sector.

HAMILTON AVE. EXTENSION TO WEST PLANNED

Plan lines for the proposed extension of Hamilton Avenue from its present terminal at Winchester Road to a point some 500 feet west of Llewellen Avenue will be reviewed at a hearing on the evening of January 5 before the Campbell Planning Commission, according to action taken when the group met Thursday. The setback lines would be established so that a subdivision map can be approved.

Planners rejected preliminary map of Sunny Brook Gardens No. 2 subdivision without prejudice because information was incomplete and was non-conforming to ordinance requirements.

Action was deferred until December 15 on requirements for curb, gutter, sidewalk and paving for churches in residential areas. Planners indicated these conditions should be conditional when the permit is up for approval.

Cambrian School To Open Bids On Addition Tonight

Bids are to be opened at 8 o'clock tonight by trustees of Cambrian Elementary School District for completion of the Steindorf school on Ross Road. Delos Bagby, district superintendent said today that with these facilities there will be some relief from double sessions.

The 10-classroom Bagby School, with a capacity of 515, is scheduled for January completion. The four schools will give the district a capacity of 2,000.

However, Bagby said the additional structures will not necessarily mean the end of double sessions in all schools, since enrollment will increase by the time the schools are completed.

The Cambrian School on San Jose-Los Gatos road and Casey Road, has 1,260 students on double session.

One more wing will be added to provide two kindergarten rooms and a health and administration office.

The 10-room school, operating since March 14, will have a capacity of 515 pupils. It now houses 490 on double sessions.

Campbell Council Hesitates

SAN JOSE OFFERS TO SHARE COSTS OF STORM SEWER LINE

The city council deferred action until Monday on a proposed agreement with City of San Jose on construction of a storm sewer line of graduated circumference from the Tilson properties, corner Saratoga Avenue to San Tomas Creek, San Jose proposing to pay $48,000 of the cost if used for this purpose by December, 1957. The line would pass through the Duc Property now Las Ranchitas subdivision and the Latimer Park subdivision.

San Jose would put up $12,000 at once so as to augment cost of the Duc line with a larger pipe line to replace the one now waiting to be installed. The remaining $36,000 would be paid from San Jose subdivision collections of $750 per acre Campbell collecting in the same basis from its benefitting subdivisions. Councilman Chargin said we are some seven or eight thonsand dollars away from being assuerd the entire cost of the project will be paid for, and purpose of the adjourned meeting next Monday will be to see if City Manager A. Hamann and San Jose Councilmen who return today from Florida, will assure that this difference be met. Attorney R. F. Costello said he had gone as far as he could in behalf of San Jose interests.

Mayor Richard Morton said the advantage would be that a storm sewer line could and would be built without a bond issue while if waiting for subdivisions turning in connection charges the time of construction would be indefinite.

In extending the hand to San Jose on this matter, the council clenched fists over proposal of San Jose to annex Maywood No. 3 which would zig-zag its way to Hamilton avenue. A protest resolution was adopted to be sent the San Jose Council Monday that the proposed 94 acre annex invades the Campbell sphere of influence and is a violation of an agreement reached by the two councils last January. City made no protest over two other proposed annexation by San Jose near Ross Avenue.

Council introduced an ordinance for annex of C. E. Reed property at Winchester and Budd, awarded contract to W. F. Fuller for white and yellow traffic lane paint and to George Avery Company for traffic beads on their low bids. LeRoy Black, street superintendent said he would buy red paint locally.

Terms of T. R. Solari and J. A. Tomlinson on the planning commission are expiring, the city attorney reported.

State Division of Highways plan to deepen channel to afford a protective wall for Los Gatos Creek north of Campbell avenue was approved.

City Attorney Joseph Bonacina reported cost of traffic officers at school crossing might be paid by State fund if city can prove most of traffic load is from out of city.

Council approved 24 minute parking in front of the building inspector office, Mayor Morton saying the 12 minute cycle is used just in case Campbel ever has parking meters.

W. L. Morser, building inspector reported 601.90 in permit fees had been collected in November and permits issued for construction costing $247,400.

Police Chief Locke in a letter stated no hole had been burned in a chair or floor while a prisoner was in custody at the fire station, and that two officers were on guard. Council filed the letter after Fire Chief Jack Scott said the squabble was trivial. Council in meantime is considering renting space for the police department.

Miss Kay Jean Morell, 14, above, daughter of Dr. and Mrs. W. B. Morell of Shasta Avenue, San Jose, will present a piano concert Sunday, Dec. 11, in the studio of her teacher, Adolph Baller, in Palo Alto. Works of Mozart, Brahms, deBussy, Chopin, Mendelssohn, Schumann, Bach, Beethoven, and Prokosieff will be included on the program. Kay was a sophomore at Camden High School until recently and is now enrolled at San Jose.

These items will be listed by the various merchants in the next issue of the Campbell Press. It will pay dividends to give the home town merchant the opportunity to serve you with Christmas needs. Watch the Press for these messages.

Swim Pool Permit Issued This Week

Permits totalling $41,427 in construction costs were issued this week by W. L. Morser, building inspector as follows:

EDITORIAL

GUESS IT'S A "CODE" IN THE HEAD

A word of commendation is due the efforts of our mayor, Richard Morton, for his efforts as a private citizen in causing the latest county building code to be held up. It looks as though certain parties in the plumbing industry have tried to slip one over on the public. Imagine putting lawn sprinkler systems under the code, and practically requiring that licensed plumbers install them! It's ridiculous — and so are many other aspects of county and city building codes all over the country. In many cases, they outlaw the efforts of a homeowner to perform his own carpenter work, plumbing, electrical work, and other phases of construction and repair.

There is only one criterion that should be used by authorities in setting up building codes, and that is the interests of safety and sanitation for the benefit of the people as a whole. Let's leave out the interests of those who have nothing but an axe to grind. We, as citizens, would like to decide for ourselves what is and what is not economical or advisable for us to do—not let someone else do it for us.

Furthermore, inspection should be based simply on the quality and correctness of the work performed not whether it has been installed by one licensed to perform such work. Licensing or belonging to a union is not, in itself, a certificate of proficiency. Or better stated, a non-union or unlicensed person can hang a shower door in many cases just as well as a man with a dozn certificates.

REST HOME CARE

Anyone who has ever had the experience of trying to place one of their loved ones in a rest home can appreciate the significance of alleged abuses in a few of these homes. Santa Clara County has many rest homes dedicated to the care of persons who have become helpless because of arthritis, paralysis and other afflictions which cause a loss of control over some faculties. Conditions like that strike families in all levels. All are not welfare cases. All rest homes are not guilty of such abuses, but rather are dedicated to giving loving care to patients entrusted to them.

Georgya Ash, head of the Foothill Convalescent home near Campbell has brought to public attention some of the abuses which allegedly exist, and she is entirely right in so doing.

The Board of Supervisors instructed County Counsel Spencer Williams to investigate possibility of reimbursement by the state for inspections other than by the state on these cases.

We trust that there be no delay in this investigation.

Being responsible for the welfare of an invalid relative is something which may come suddenly on any of us, and any of us may be the one for whom someone may be responsible in years to come.

THE CHRISTMAS STAR

The story of the Christmas Star is to be presented all through December at the Morrison Planetarium in Golden Gate Park at San Francisco. It goes back to January 1, 7 B.C.

The curtain of night lowers on a Judean horizon then stars come out one by one, exactly as they were on that quiet night when shepherds saw the star that heralded the birth a King — the beginning of the Christmas era. The Christmas star will appear, mysterious as it is to astronomers. It is impossible to say whether it was of natural origin or a supernatural star intended only to guide the Wise Men from the East. The planetarium will discuss various theories seeking to explain the Star of Bethlehem in terms of a natural phenomenon. There are three shows Saturdays and Sundays, two on week days.

SUCCESS FORMULAS

Two great men of the modern era once offered their formulas for success. "The secret of success," said the late George Bernard Shaw, "is to offend the greatest number of people. There is not a class of people I have not shaken to the foundations." A different view was presented by Bernard Baruch. Said he: "Be polite. Be cheerful. Be quick to praise others. Be careful. This is the first definition of success." As for Shaw, we don't believe that he achieved success merely through offending people. His acid comment gained him a great deal of publicity but it was his literary genius, expressed sometimes by stating a profound truth in biting terms, that carried him to the top of his profession. The formula offered by Baruch undoubtedly aided his climb in the financial world but he, too, had a lot of ability. These men had another quality in common—the willingness to work hard and to devote themselves whole heartedly to any project they undertook.

E DRIVING PAYS OFF

For the second year in succession, Campbell survived S. D. Day without an accident, which is quite a record considering the traffic load on highways here. Police Chief Robert Locke said there was caution used resulting from an informed people to prevent accidents. Glen Baker, special administrator for S-D Day in Santa Clara County, commended the City of Campbell for this outstanding record.

Making safe driving a policy every day of the year would be a good endeavor, and would save lives and money.

The Campbell Gambol

NOISE The official publication of the Quito-Saratoga Kiwanis Club commends two of its members for arranging highway signs for the club and suggests they be named to solicit a railroad crossing signal for Quito Road, account if one of those trains should get off schedule, the club could have a smaller attendance with no opportunity for make-ups . . . Campbell Kiwanis Bulletin on the other hand, commenting on speech about oil by representative of a major company says this could be a good place to strike it but the closest most of us get to it is that which we find on the garage floor, and that so far as unitizing is concerned it would be nice if the plan reached our back yard. . . .Campus Echo defined "Kindred" as a fear relatives are coming to visit.

FOR A DIME Each, the Quito-Saratoga Kiwanis Club last night sold all "Motehr-in-law" neckties which the various members brought in for display, the proceeds going into the Club Service fund, Oliver Upton the president explaining it was a good opportunity to clean out the closet, one member promising to press them for free but charging double for cleaning, while William Christensen, vice-president needled the members to attend the sale account they will get awfully fat and logy just sitting at home nibbling and watching T-V fights on Wednesday nights.

SIGHTEMS . . . First decorated outside tree noticed was on Cherry Lane, first house left side from Winchester Road . . . Christmas music and jolly old Santa at Clark's Drug Store on Friday with lots of toys displayed and kiddies eyes sparkling . . . highway engineers putting an (X) on a spreading pepper tree at eastern end of Campbell Avenue intersecting with Los Gatos-San Jose Road meaning this landmark is doomed for wider traffic channels and signal lights . . . 55 acres of prune trees uprooted and piled high at Las Ranchitas subdivision, more of them uprooted on some 150 acres in the area where subdivisions are starting and further reducing the prune acreage, while reports come from overseas that Australia is going in for prune orchards to replace those coming out of the Santa Clara Valley . . . some acreage on west Campbell avenue north toward Latimer, being laid out for strawberries using the land for about three years for which growers get returns up to $10,000 per acre . . . concrete being poured in forms for foundation of new Congregational Church, corner Carlyn and West Campbell Avenues, work going on with five new stores in Latimer Shopping Center, two new service stations going up on north Winchester Road, survey stakes and flags out for new Hamilton Square Shop Center, south east corner San Jose-Los Gatos Road . . . memo to plug for a change in name of this road to a shorter, more picturesque name, present name being too rural, lengthy and foreign to local color . . . Santa Clara- Los Gatos Road is Winchester Road in Campbell, so something like Ainsley Road would be our proposal, corner of Hamilton avenue of one of the pioneers in the canning industry responsible for development and prosperity of the fruit industry in the valley.

Final Spurt Will Be Given Feather Drive In Campbell

The Campbell Red Feather Campaign is lagging, according to last reports on contributions, and George B. Kemp, chairman, has announced formation of a special committee headed by Mrs. Arthur E. Langen to aid in completing solicitation.

Kemp also has appealed to potential donors who have not contributed to the current Community Chest Campaign to mail their contribution direct to campaign headquarters.

With a goal of $10,000, Campbell has reported only $6323 in Red Feather contributions to date, or 63.23 per cent of goal.

The over-all Red Feather Campaign in Central Santa Clara County has a goal of $410,900 and has raised $390,555 or 95.05 per cent of target.

A number of residential areas in Campbell have not been canvassed, according to Kemp, and the special committee of which Mrs. Langen is chairman will take over the task of completing solicitation.

Members of this committee also will aid the business division, inasmuch as a sizeable number of business firms have not reported contributions to the current Chest appeal.

The schools division of the campaign, of which Delos Bagby is chairman, has completed solicitation and reached quota, Kemp said.

Kemp asked that donors who wish to make their contributions by mail send them to Campbell Red Feather Campaign headquarters, Campbell High School, attention Cnairman George B. Kemp.

Campbell is conducting its Red Feather Campaign in conjunction with similar appeals in San Jose, Santa Clara, Cupertino, Milpitas, and some 20 rural centers in Central Santa Clara County. The contributions will be shared by 27 youth, health and welfare agencies of the Community Chest which serve this area, including Campbell.

Vacation Starts With Enlistment

The U. S. Army has announced a new holiday leave policy in which all persons enlisting or reenlisting in the Army between the period December 15-22 1955 may be granted up to 15 days leave immediately upon accepting the oath of enlistment. These individuals will be permitted to spend the holiday season with their family and friends and will not be required to report to their first duty station until the completion of their leave time.

Army Officials feel certain that this new leave program will result in a decided increase in the number of enlistments for the month of December. Sgt. Ovid E. Wells, Recruiter in San Jose stated that anyone desiring more information on the holiday leave policy should visit the Recruiting Station at San Jose, Rm. 203, P. O. Building.

SANTA CLARA, CAMPBELL AGREE ON MUTUAL BOUNDARY LINE

By mutual agreement, Campbell Elementary School District and Santa Clara Elementary School District have accepted in principle a move to reorganize the common boundary of each along Pruneridge Avenue.

Trustees and administrators of each district are now seeking to work out detailed agreements for later formal action. In essence, it is planned to have Campbell's northern boundary "level off" at Pruneridge to permit consolidation of school services in the area.

As now laid out, Campbell would relinquish control over a section of land forming a peninsula deep into Santa Clara school jurisdiction. It is largely undeveloped. Santa Clara would also gain control over a small sector of Campbell's northeast corner.

In exchange, Campbell would assume control over a Santa Clara "peninsula" extending southward from Pruneridge. School populations in each district's "new" territories are roughly equal.

As planned, children now in school would continue their education in the same school if they deside to do so. Inter-disrtict attendance agreement would be drawn up so that neither district would pay additional tuition costs for children concerned.

Several "islands" of San Jose Unified School District control still remain in the northern area. Attendance problems resulting have not been resolved, since San Jose tuition costs are about $180 a year higher per child than in either Campbell or Santa Clara school districts.

Teen-Age Work Is Club Project

"Teen-Age Work Co-op" a community project sponsored by the Women's Service Club of Campbell, with the cooperation of the Campbell Union High School, is now under way.

The club will act as a clearing house for people who wish to employ teen-agers to cut their grass, wash cars, baby sit, wash windows, or any other type of work suitable for high school students.

Application blanks, which must be signed by the students and their parents, can be secured at the high school through Miss Kathleen Bull, dean of girls, and Robert Culp, dean of boys. The "Teen-age Work Co-op" has been in operation for about a week and the high school students have indicated their interest and enthusiasm for the project.

The Women's Service Club has patterned the project after one in operation in Millbrae, which has proved to be very successful in that community, according to Mrs. George Pounding.

Mrs. Pounding is chairman of the undertaking, assisted by Mesdames Berdette Creighton, Herbert Neale, J. M. Dahl, Franklin Blaine, C. T. Mitchell and Robert Manthey.

The club tentatively plans to expand the Co-op to the Camden High School in the future.

Mrs. Marian Pratt will attend meeting of the various clubs and groups in Campbell to distribute circulars and explain the purpose and operation of the project.

Rotary Hears Of Helicopter Plans

Campbell Rotarians heard a discussion on the development and modern uses of helicopters at their meeting last Monday noon, when Ralph Kummer, public relations manager for Hiller Helicopters, was guest speaker.

Kummer gave a history of the development of helicopters, and stressed their advantages over airplanes in many operations, such as transportation of equipment and men to locations inaccessible to airplanes because of their ability to land and takeoff vertically, eliminating need for roads and airport units. Kummer also told of development of the new "flying Platform", which uses an entirely new principle of flight.

Jack Payne was chairman of the meeting.

The Rotary Club will hold their Christmas party at the Monroe School Auditorium, Monday, December 19th at 7:00 p. m.

PLAN CHRISTMAS PARTY FOR HOSPITALIZED VETS

All Peninsula organizations should now be in receipt of a letter from the Peninsula Christmas Committee for Hospitalized Veterans asking for the yearly donation of funds, A. H, Sagehorn, San Mateo County Treasurer and president announced today. This is a critical year, he said, for the Christmas Committee to obtain the necessary financial support.

Sagehorn also stated: "the importance of our effort at the veterans' hospital in Palo Alto cannot be overestimated, nor that also accorded to all other hospitalized veterans on the Peninsula. Without it", he added, "Christmas to these patients who are confined for an indefinite period would be a time of loneliness and heartache, rather than the usual season of joy and goodwill".

The Christmas Committee supplies at Christmas time to these veteran patients around 12,000 substantial articles, such as ties, T shirts, pens etc., for gift wrapping, besides numerous Christmas trees of various sizes together with decorations and lights.

It is hoped, Sagehorn said, the response from groups and intrested individuals will be prompt and generous as they remember with a grateful heart those too often forgotten. Santa Clara County o ganizations are joining in more a more to this appeal. Officials a directors of the Christmas Co mittee in this area include: M Frances Pryer, secretary, Cam bell; Llewellyn B. Peck, Saratog and Mrs. Irene Newman, L Altos.

A FEW OBSERVATIONS

The German people are very polite. Men always wear jackets in public, and are loath to take them off even on hot days. They give their seat to others on streetcars—men yield to women, young women to older women, and children to everybody. When invited to dinner at someone's house, they bring flowers. At dinner in a hotel it is customary to greet the other diners, when entering. Here, waiters are forever saying, "Bitte", (Please, or for your pleasure) when they so much as move a plate.

Out on the highway, however, the German becomes a field. Manners are abandoned, and the man who tipped his hat to you in the morning, may run you down before the day is through. Pedestrians, seemingly, have no rights, and drivers bluff their way through intersections with one hand on the horn. There are few signal controlled intersections. At important crossings, a policeman regulates traffic by standing on a box in the center and motioning vehicles through with his hands; which, as tedious as it sounds, works quite efficiently. The streets are full of bicycles and motor scooters as well as larger vehicles, which makes every crossing a "survival of the fittest".

This contradiction in the German character between the man on the sidewalk and the man behind the wheel is one of the unanswered mysteries of the universe.

TRIP TO BAD EMS

September 21, Johanna and I took a short trip up the Rhine river from Mainz to Niederlanstein (below Koblenz) and from there to Bad Ems in the Taunus mountains. The boat trip up the Rhine is one that no traveler in Europe should miss. On the voyage one sees the Castles of the Rhine, (some dating back as early as the 11th century,) the Lorelei, the Pfalz, and other towers and monuments, the vineyards from which the famous Rhine wine is made, and the towns and cities on the river's bank—all of which defies description. On the boat we met Mrs. Edwin Taubman, of Oakland, who knew several people in Los Gatos. Later we had an interesting talk with a couple from Monrovia, California, who had just come from Berlin and Potsdam. It seems that one is never out of sight of Californians on any of the beaten paths in Europe.

In Bad Ems we got complete room and board in a nice hotel for $3.00 a day. We did some hiking and sunning in this small health resort, known for its curative mineral springs. One evening we watched television, which was in no way inferior to U. S. TV, and was sharper than I've ever seen. Another evening we discovered apple-cake pastry which was truly out of this world. One can have no complaint about the food here, or about any part of our stay at Bad Ems.

A NOTE FOR THE FUTURE—September 27

It's an interesting coincidence that I have come here hoping to find a job in order to stay in Europe a-while, and Johanna, whom I am visiting here, is waiting for her visa to go to the States and live. I've had extreme good luck and have found a job here with the U. S. Army: I've met many people who looked six to eight months for one; and no one recommends coming over without a job already secured in the States. Happily, I didn't find out this discouraging news till I'd already been hired. A job in Europe, obviously, has many travel advantages, and so, is very desirable and highly sought after. Needless to say, I'm happy. I hope my friend will find a job in the States as easily.

My hopes for the future center around a trip to Italy, a truly beautiful country, which I dearly love. But until such time as I can go there, may I extend my greetings from Frankfurt to you in Campbell, and Auf Wiedersehen.

Said bonds are general obligations of County Sanitation District No. 4 of Santa Clara County, and the Board of Directors of County Sanitation District No. 4 has power and is obligated to cause an annual tax to be levied upon the real property in said District subject to taxation by said District, without limitation of rate or amount, for the payment of said bonds and the interest thereon.

TAX EXEMPT STATUS

In the event that prior to the delivery of the bonds the income received by private holders from bonds of the same type and character shall be declared to be taxable under any Federal Income Tax Laws, either by the terms of such laws or by ruling of a Federal Income Tax Authority or Official which is followed by the Internal Revenue Service, or by the decision of any Federal Court, the successful bidder may, at its option, prior to the tender of said bonds by the Sanitation District, be relieved of its obligation under the contract to purchase the bonds, and in such case the deposit accompanying its bid will be returned.

LEGAL OPINION

The legal opinion of MESSRS. ORRICK, DAHLQUIST, HERRINGTON & SUTCLIFFE, of San Francisco, California, approving the validity of said bonds, will be furnished to the successful bidder without charge.

TERMS OF SALE

Highest Bid: The bonds will be awarded to the highest and best bidder considering the interest rate or rates specified and the premium offered, if any. The highest bid will be determined by deducting the amount of the premium bid (if any) from the total amount of interest which the District would be required to pay from date of said bonds to the respective maturity dates thereof, at the coupon rate or rates specified in the bid, and the award will be made on the basis of the lowest net interest cost to the District. The lowest net interest cost shall be computed between the dates aforesaid on a 360-day year basis. The purchaser must pay accrued interest from date of the bonds to date of delivery. The cost of printing the bonds will be borne by the District.

Right of Rejection: Sanitation District reserves the right in its discretion to reject any and all bids, and to waive any irregularity or informality in any bid.

Prompt Award: The said Sanitation District will take action awarding the bonds or rejecting all bids not later than twenty-four (24) hours after the expiration of the time herein prescribed for receipt of proposals; provided that the award may be made after the expiration of the specified time if the bidder shall not have given said Sanitation District notice in writing of the withdrawal of such proposal.

Prompt Delivery: Delivery of said bonds will be made to the successful bidder at the office of the County Treasurer of Santa Clara County, in San Jose, California, as soon as the bonds can be prepared, but not prior to January 1, 1956.

Right of Cancellation: The successful bidder shall have the right, at its option, to cancel the contract of purchase if the bonds are not tendered for delivery on or prior to February 15, 1956, and in such event the successful bidder shall be entitled to the return of the deposit accompanying its bid.

Form of Bid: All bids must be unconditional for not less than all of the bonds hereby offered for sale, and for not less than the par value thereof and accrued interest to date of delivery. Such bids, together with bidder's check, must be enclosed in a sealed envelope and endorsed "Proposal for Bonds of County Sanitation District No. 4 of Santa Clara County" and mailed or delivered to said Board at 375 East Campbell Avenue, Campbell, California.

Bid Check: With each bid must be submitted a certified check or cashier's check of $2,500.00 drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the order of the Treasury of Santa Clara County, to secure said Sanitation District from any loss resulting from the failure of the bidder to comply with the terms of its bid. In addition, bidders are requested (but not required) to supply an estimate of the total net interest cost to the District on the basis of their respective bids, which shall be considered as informative only and not binding on either the bidder or District. Checks of the unsuccessful bidders will be returned upon the award of the bonds. No interest will be paid upon deposit made by the successful bidder.

GENERAL INFORMATION

There is no controversy or litigation pending or threatened concerning the validity of the above issue, the corporate existence of said District, or the title of the officers to their respective offices, and the District will furnish to the successful bidder a no-litigation certificate certifying to the foregoing as of and at the time of the delivery of the bonds. CAMPBELL SEEKING SITES FOR THREE NEW SCHOOLS

Acquisition of three new school sites in the northern area of Campbell Elementary School District is being explored by the administration. Trustees have acted in the face of skyrocketing enrollments and building activity in the areas concerned.

1. First would be a school site in the area north of the present Cypress School at Cypress Avenue just south of Stevens Creek Road. It would serve the area north of Stevens Creek Road in the rapidly builing sector south of Pruneridge Avenue.

2. Second on the list of proposed school areas would be a school site north of Dover School, now in a double session program and facing still larger enrollments as the section east of Meridian Road and south of Los Gatos Creek continues to fill with subdivision homes.

3. Third would be a school site south of Cypress School west of Winchester Road. Heavy subdivision development of the area presages enrollments at both Cypress and Monroe Schools which now serve the general area but appear incapable of meeting future total needs.

Trustees launched the site selection study in an effort to keep abreast with school needs in advance of the time schools will be needed to serve the areas concerned. They pointed out that good school sites are increasingly difficut to locate, and that each month that goes by makes the task harder.

They pointed out adequate land obtained while it is undeveloped is far less expensive than when earmarked for subdivision or requires condemnation of occupied homes.

San Jose Drama Club To Present Browning Story

San Jose State College drama department will present the second production of its current season when THE BARRETTS OF WIMPOLE STREET appears in the College Theatre December 8, 9, and 10.

The story of the love and courtship of Elizabeth Barrett and Robert Browning has often been told, but never so effectively as in this dramatization by Rudolf Besier. It was an immediate success on its first presentation by Katherine Cornell in 1930 and its value has been increasingly recognized ever since.

Besier's play is based on history but its warmth and its vitality are qualities that belong to no particular period. The bed-sitting room on Wimpole Street, in which the entire action of the play takes place, reflects the charm of a past period for us, but it also serves as an arena in which human being fight for their freedom and their

Valley Baseball Talent To Be On New Team Set Up

With operating capital subscribed, Articles of incorporation have been filed with the Secretary of State for sale of stock in the Santa Clara Valley Baseball Club, Inc. successor to the San Jose Red Sox in the California Baseball League.

It was pointed cut at a meeting of the Campbell Kiwanis Club that the new, independent club will field talent mainly from the Central Coast area, rather than take trial talent from Boston Red Six.

Seven Santa Clara County resident, five from the metropolitan San Jose area, and one each from Gilroy and Palo Alto, are listed officially as the incoproators. They are Merritt L. Rice, Emery J. Delmas, Frank W. Delasandro, Edward O. Duino and Charles F. Mallory, all of San Jose, and George Milias Sr., Gilroy, and Hal Mc Creery, Palo Alto.

All seven are shown as directors of the new baseball club with the following names as officers of the corporation: Mallory, president; Milias, vice president; Delmas, secretary; Rice, treasurer, and Duino, assistant treasurer.

"All stock in our baseball company which is now available to the general public is being sold for cash at $10 par value", according to Mallory. "This stock is preferred and will be sold as five per cent per year dividend stock on a cumulative basis."

Directors of the California League voted in Reno several weeks ago to give the new company until Nov. 20 to raise a minimum of $30,000 in operating capital. Actually, the incorporation papers call for a total stock sale of $100,000.

BUCS SPLIT WITH LINCOLN IN GAMES HERE

By Steve Dunn

Plagued by penalties, the Campbell High cagers split two games with the Lincoln Lions last Saturday, losing the varsity contest, 46-36, and triumphing in the preliminary, 35-24 on the home court.

The Buc varsity showed a lot of promise; however, they could not overcome the staggering total of 24 points given Lincoln through penalties, sixteen of which came in the crucial second half. Ball control was another factor in favor of the Lions, for they fielded an unusually tall team.

The Bucs displayed a lot of effort, as they poured in a total of 19 points in the second quarter to take a first half lead of 23-18. By the end of the third quarter, the Bucs were on the short end of a 31-28 score. Fighting valiantly, they pulled ahead briefly in the last two minutes of play by the score of 36-35, only to have the Lions come back and pull the game out of the fire.

Roger Almquist and Ray Christenson spearheaded the Bucs with seven points apiece, while Dwight Klassen, Dick Mills, and Vernon Lunt all dropped in six markers. Mills looked especially sharp.

Don Kitajima led the victorious 30's in the first game, scoring 10 points to take high point honors. All the other B's also played alert, aggressive basketball, as the team downed a tough Lion squad, 35-24.

Varsity Cagers Open Season

By Steve Dunn

The Campbell High Varsity Basketball Quintet lost a hard fought contest to Live Oak, last Tuesday 40-38, to open the current season. The game, which was a practice tilt, was played on the victors' court.

The Buc cagers went into the contest with less than five hours of practice time. Considering this and also the fact that the game went right down to the wire, the boys turned in a creditable performance.

Campbell jumped to a quick first half lead of 21 to 17 and held it until the final quarter. At this time John Bogonyi, who sparked the Bucs with a point total of 12, and Roger Almquist, a gifted junior forward, were removed from the game on fouls to dim the Campbell hopes.

Other Bucs contributing to the cause were Vernon Lunt, the only returning regular on the squad, who dropped in eight points as he scored one field goal in each quarter and Ray Christenson who produced a total of six markers.

In the preliminary action, the Buc 30's didn't have it in the clutch and went down to defeat in overtime, 35-29. At the close of the fourth quarter, the game had been knotted 25 all. Filing and Rowe led th Bucs with identical point totals of 8.

Cattlemen Square Off On Issue Of Price Supports

Red Bluff—A spot check of commercial beef producers at the Annual Convention of the California Cattlemen's Association in Red Bluff, December 8, 9, and 10 indicates great interest in the open discussion period Friday afternoon on what's wrong with the ailing beef cattle business.

Expressions from leaders in the industry show that everything from price supports to a cow buying program will be aired at the session. An example, was an expression today from Lt. Gov. Harold Powers, a Modoc county cattleman, that cattlemen should think twice before urging price supports on beef cattle.

Gov. Powers statement was in answer to an expression made early last week by W. C. Gover of Anderson, who advocates a price support program for the cattle industry. The Lt. Gov. further stated, "Once price supports are adopted, they are hard to get rid of, and in the near future cattlemen might not want the government telling them how many head of cattle they could produce."

Square Dancers Plan Jamboree

Dudes and Dolls Square Dance Club will stage a "Holiday Jamboree" tomorrow evening at 8:00 at Rosemary School. All clubs and classes are invited to attend the jamboree and dance to the calling of John White, Ken Oburn, Lou Hughes, Ernie Trimpey, Bud Helms, and Neva Johannes. Master of ceremonies for the evening will be Ken Clark.

Square dancers will donate canned goods, toys or cash amounting to a dollar a couple, all of which will be turned over to Rosemary Home and School Club for distribution to the needy.

Abner McKenzie, president of the Tehama County Cattlemen's Association, co-host with eight other Northern California Associations for the state convention, in commenting on Lt. Gov. Powers statement announced that his organization was going to recommend a resolution to the convention that the Federal Government purchase two million head of cattle and get the surplus of meat out of the country.
